

Ogni studente deve consegnare un documento PDF contenente gli steps di uno UC del suo progetto;  
minimo 8 steps e 3 extensions.

Use Case: Register for an exam  
Internal Steps:

1. The students logs into the system
2. The student requests to register for an exam
3. The system prepares a blank exam list page
4. The system gets available courses for the student
5. The student selects the exam they want to register for
6. The system prepares a course info page with date and time slots, location and a form to input special info for the student
7. The system gets the info to fill the page
8. The student confirms they want to register for the exam
9. The system saves the registration
10. The system sends the student a confirmation email

Extensions:

- 3a. STUDENT IS NOT REGISTERED TO A DEGREE COURSE: System shows an error message, explaining that the student should enroll for a degree course before asking to register for an exam
- 3b. THERE ARE NO AVAILABLE EXAMS FOR THE STUDENT: System shows an error message, explaining that there are no available exams in the database
- 8a. THE STUDENT DIDN'T FILL ALL THE MANDATORY INFO: System shows an error message, explaining which info the student has failed to fill
- 8b. THE STUDENT HAS DUE PAYMENTS: System shows an error message, explaining which payments are due and when did those expired
